Re: Violation of SB 658

To Whom It May Concern **OR** Dear _____:

As you are aware, Governor Stitt recently signed SB658 into law (the “Bill”). The Bill specifies the following with regard to Pre-K-12 and higher education in the State of Oklahoma:

1. Mask mandates may only be issued by school and university boards under a state of emergency and such mandates must be regularly reviewed.
 - o At this time, Governor Stitt has indicated no state of emergency with regard to the Delta variant will be declared.
2. Mask mandates which require only unvaccinated students to wear a mask are prohibited.
3. Schools and universities must notify parents and students that they may opt-out of vaccination mandates using legally allowed exemptions.
4. Vaccine passports or any other requirement that a student show evidence of having received the Covid-19 vaccine are prohibited.
 - o Any requirement that students who are vaccinated do not need to quarantine is also prohibited as it would require students to show evidence of receipt of the Covid-19 vaccine in order to not be required to quarantine.
5. With the exception of certain medical programs where the student is required to see patients, the Covid-19 vaccine may not be mandated for any student.

It has come to our attention that _____ (School Name) is violating Item # _____ above with regard to the Bill by _____. We hereby request that you modify your policies to bring them into compliance with the Bill.
